Issued at Tokyo on 12<sup>th</sup> July 2024.

( Junichi Kawakami )

General Manager

Technical Solution Department

## 1. Definition of “Product Description(s)”

- 1) Spectrum can automatically detect and register new hardware and software assets across whole fleet. The identification of assets can be viewed in a centralized application on shore. Also provides all the means for the IT teams to manually register any missing assets.

## 2. Document examined

No.	DWG. TITLE
1.	Spectrum-Manual-00-16-R02-2

## 3. Limitations

This certificate is issued upon confirmation of the functions of the product as specified in the product description proposed by the applicant and defined in the above 1, by review of the documents listed in the above 2 and witness of the functional confirmation tests.

Therefore, it does not intend to apply for any approval or survey of the product for the purpose of classification registration or to ensure the validity of the output of the product.

Neither the Society nor any of its officers, directors, employees, agents or sub-contractors shall be liable for any loss, damage or expense of whatever nature sustained by any person, in tort or in contract or otherwise, due to any act or omission or error of whatever nature whether or not negligent howsoever caused in the provision of services, information or advice given in any way whatsoever by or on behalf of the Society.
